### Specifications

|                              |               |
|------------------------------|---------------|
| Watt-Hour                    | 5120Wh        |
| Capacity                     | 200Ah         |
| Voltage                      | 25.6V         |
| Weight                       | 38kg          |
| Dimension                    | 523*269*218mm |
| BMS                          | Yes           |
| Efficiency                   | 98%           |
| Max charge/Discharge Current | 200A          |
| Max Charge/Voltage           | 28.8V-29.2V   |
| Cut-off Voltage              | 18.4V-20V     |
| Peak Discharge               | 400A 0.5s     |
| Storage                      | 0° to 50°     |
| Discharge                    | -20° to 55°   |
| Low Temp Charging Protection | Yes           |
| Connection Capability        | Max 2S-16P    |
| Warranty                     | 5 years       |
